

Curriculum for MD Degree in Pharmacology

IN PURSUIT OF EXCELLENCE

MGM INSTITUTE OF HEALTH SCIENCES

(Deemed University Established u/s 3 of UGC Act, 1956)

Navi Mumbai - 410 209

[www. mgmuhs.com](http://www.mgmuhs.com)

INSPIRING MINDS

Mission

To improve quality of the life for individuals and community by promoting health, preventing and curing disease, advancing biomedical and clinical research and educating tomorrow's Physicians and Scientists.

Vision

By 2020 the MGM University of Health Sciences will rank one of the top private Medical Institution. This will be achieved through ground breaking **discoveries in basic sciences and clinical research** targeted to prevent and relieve human suffering, **excellence in Medical Education** of the next generation of academic clinicians and intrinsic scientists.

MGM University of Health Sciences will transform the **Education of tomorrow's Physicians and Scientists** conducting **Medical Research** to advance health and improving lives by providing world-class patient care.

Many see the 21st Century as the golden age of biomedical research. The MGM University of Health Sciences will position for leadership at the horizon of this new era to promote and stabilise stand human health with a standard of excellence.

Chancellor's Message

It is my pleasure to welcome you to join constituent colleges of Mahatma Gandhi Misson's (MGM) University of Health Sciences, Navi Mumbai. I wish to avail this opportunity to apprise you and your parents about the academic excellence of the deemed university.

The MGM University of Health Sciences was established u/s 3 of UGC Act, 1956 vide HRD Notification No.F.9-21/2005-U.3(A) dated 30-8-2006. The MGM University is an outcome of untiring efforts of our educationists, professionals, social activists, technocrat, students and parents. The Mahatma Gandhi Mission Trust that manages the University of Health Sciences and over 40 institutions in Navi Mumbai, Aurangabad, Nanded, and Noida has the vision to empower the masses with the availability of state-of-the-art education. Most of our institutions have ISO certifications that further endorse our commitment to stringent quality standards. I am proud to state that we have succeeded in these accomplishments during our journey of the past 25 years.

I recollect the memories of struggle and determination when the MGM Trust established its two medical colleges, one each at Navi Mumbai and Aurangabad some twenty years ago. Both the medical colleges have grown into institutions imparting both undergraduate and postgraduate courses, and delivering quality health care to communities in their respective areas. While both colleges are engaged in their primary functions of teaching, patient care and research, they have

also excelled in their pursuit for advancement of science and in taking health services to communities through extension programmes. A shining example is the establishment of the Department of Infectious Diseases in 1993 in collaboration with the University of Texas-Houston, USA. This department has established the state-of-the-art clinical services and laboratories for research and care of infectious diseases and received the acclaim of Director General of ICMR when he stated "MGM is the first medical college in India to establish a separate department of infectious diseases. This is the need of the hour." The department has undertaken path-breaking research and shaped the course of our national control programmes on HIV/AIDS and tuberculosis. The original research of the constituent colleges has been acclaimed among the scientific world globally.

In an era of economic liberalization and the competition among varsities, both in and out of India, the task of grooming professionals who will compete with the best in the world, is tough. To aid our efforts to excel, MGM University of Health Sciences has the latest research facilities, a dedicated research faculty, as well as an array of distinguished visiting faculty members. The quiet ambience of our campuses, the well filled library with subscriptions to international and national journals, and the lush-green gardens add to our accomplishments.

Considering the manpower needs of

educational, industrial agricultural, and health sector to maintain their steady growth, several fresh M.Sc. courses have been launched. M.Sc. courses introduced at the

University from the current academic year shall provide knowledge, skills and subsequent employability that are at par with the counterparts in India and abroad. The curricula of the courses have been designed by experts and peer-reviewed with an emphasis on the job requirements of educational institutions, industries, health care, and research institutions. These courses will empower the students to choose a career in a classroom, a research laboratory or an industry. I am happy that the university is ticking towards the pinnacle with the introduction of these value-added postgraduate courses in medical biotechnology, medical genetics and other basic sciences.

Finally, I wish to place on record my gratitude to the founder members, stake-holders, faculty, staff, students and their parents for providing the MGM Trust with your advice and support.

Once again, it is my pleasure to welcome you to join constituent colleges of MGM University of Health Sciences' at Navi Mumbai and Aurangabad.

Kamal Kishore Kadam
Chancellor

Dr R.D.Bapat
Vice Chancellor

Dr S.N.Kadam
Pro Vice Chancellor

Dr N.N.Kadam
Director (Examination)

Dr Ajit shroff
Dean (Aurangabad Campus)

Dr Z.G. Badade
Registrar

Dr G.S.Narshetty
Dean (Navi Mumbai Campus)

The overall goal of the course is to develop expertise in the field of Pharmacology. A process of rational thinking and cogent action will be inculcated in an individual so that he/ she shall be competent to pursue various activities as demanded by the profession as Pharmacologist

Goals:

- 1) To understand pharmacology in depth with understanding of the rational use of drugs, clinical pharmacology and to prepare good quality teachers.
- 2) Introducing students to advances in teaching technology ,Computer Aided Learning, internet, patent laws and procedures etc.
- 3) To orient students for research & developments.

Objectives: To achieve this goal, the following objectives must be fulfilled. At the end of course in Pharmacology and Therapeutics, the trained specialist shall be able to

Cognitive domain:

- 1) Apply basic principles of pharmacology and therapeutics to practice rational use of existing drugs and evaluation of new drugs.
- 2) Collect and analyse experimental and clinical data related to drug kinetics or dynamics
- 3) Interpret the analyzed data with reasonable accuracy and derive logical conclusions.
- 4) Provide appropriate advice related to selection of drug, drug usage(desirable and undesirable effects, Kinetics, interactions), Precautions and measures to be taken during administration of drug and treating the ADRs in a given patient taking into consideration physiological, psychological & Pathological features
- 5) Audit drug utilization and drug related adverse events
- 6) Assess emergency situations while carrying out drug trials and institute exergency management till appropriate assistance from clinical side is available.
- 7) Develop the ability for continued self learning so as to update the knowledge of recent advances in the field of Pharmacology and allied fields
- 8) Be competent to teach and train undergraduate and future postgraduate medical students and junior doctors in Pharmacology and Therapeutics as well as nurses and paramedical staff in Medical Colleges, Institutions and other Hospitals.
- 9) Plan and carry out both laboratory and clinical research with adherence to scientific methodology and GLP/GCP guidelines
- 10) Be aware of legal and ethical aspects of drug evaluation.
- 11) Communicate the findings, results and conclusions of scientific research, both verbally and in writings
- 12) Be aware of regulatory procedures needed to be carried out prior to the marketing of a new drug in India.

Psychomotor domain :

- 1) Perform common experimental techniques required for evaluation of new drug with competence
- 2) Perform common clinical procedures required for evaluation of drug in normal volunteers and patients with competence
- 3) Organize and manage administrative responsibilities for routine day to day work as well as new situations
- 4) Carry out necessary resuscitative measures in emergency situations arising during drug evaluation
- 5) Use teaching-learning media effectively.

Affective domain :

- 1) Appreciate socio-psychological, cultural and environmental factors affecting health and drug usage.
- 2) Appreciate the importance and implementation of National health programmes in context to rational drug utilization
- 3) Be aware of the importance of cost-effectiveness in patient management
- 4) Be aware of service activities which a pharmacologist can undertake viz. therapeutic drug monitoring, ADR monitoring, drug information services, poison control centre, drug auditing etc.
- 5) Adopt ethical principles while conducting experimental and human research
- 6) Develop communication skills to interact with patients, peers and paramedical staff
- 7) Realize the importance of team work
- 8) Develop attitudes required for professional responsibilities.

COURSE DETAILS

Duration of the course -36 months [6 semesters]

First year

1. Introduction to pharmacology and its branches.
2. Selection of dissertation topic
3. Rotation in labs
4. Teaching duties

Second year

1. Teaching duties
2. Extra mural posting like clinical posting
3. Dissertation work
4. Rotation in labs

Third year

1. Dissertation completion
2. Teaching duties
3. Rotation in labs

For this following topics could be included in theory /practicals of MD (pharmacology)

TEACHING LEARNING OPPORTUNITIES

Learning and teaching opportunities will essentially be self directed and will involve

1. Experimental Pharmacology

- Animal experiments-ethics,limits, research insights, animal house.
- Screening methods for drug evaluations and experimental models-general and specific screening
- Drug assays
- Methods of assays
- Toxicological screening
- Pharmacokinetics experiments
- Biostatistics
- Principles of analytical instrumentation
- Basics of Computers in pharmacology, data base creation

2. Clinical Pharmacology:

- Would include all aspects related with drug trials....ICH –GCP guidelines ,ICMR guidelines ,
- Role of DCI/DCGI,
- protocol designing ,
- basic statistics,
- laws related to drug research including ayurvedic /herbal drugs,
- Taking informed consent etc.
- Ethics
- ADR Monitor
- Therapeutic Drug monitoring
- Pharmacoepidemiology, utilization studies
- Drug estimations in biological fluids
- Sources of drug information, DATA INTERPRETATIONS
- Advances in clinical pharmacology
- Essential drug listing

3. Drug store management

- Functions of drug store,
- Role of pharmacologist in drug store ,
- ABC/VED classification of drugs,
- Use of computers in drug store, routine administration,

4. Teaching/Academics/personality development related topics:

- Microteaching/ TOS (teachers oriented sessions)
Teaching experiences: The candidate will be regularly involved in the teaching of undergraduate medical and nursing students
- Conducting mock workshop/s and conference/s.
- Presentation skills /group discussions.
- Knowledge about patents , IPRS etc
- Computer aided learning (CAL) .
- Web searching for medical literature.
- Scientific paper writing etc.

5. Clinical case discussions:

Post diagnosis discussions on 5cases from clinical side.
Documentation of these cases in logbook.

6. Computer simulated dog BP exercise:

Identification of unknown drug on Computer simulated dog BP exercise.

7. Log book write-ups: (To be filled by student as provided in the format)

- Main purpose of the log book should be to document the work done (Experimentations, journals, thesis work, seminars, workshops etc..) .
- The content of the log book work to be signed **ONLY** by the Guide/ PG teaching in charge /HOD.
- *Journal/ seminar presentations in department :*
It should be taken care that each student presents 10 -12 seminars during the entire tenure and topics could be divided as per the following format

| Year | Topics |
|-----------------|--|
| 1 st | General pharmacology (2) Systemic pharmacology (2) |
| 2nd | Systemic/clinical /experimental pharmacology (4) |
| 3 rd | Recent pharmacology (4) |

- *Evaluation of the journal /seminar* should be done by teachers on 5 points

Eg presentation, completeness, A-V aids use, understanding, overall performance.

The purpose of this exercise should be to make the student aware of his progress.

- Experimental evaluation system (to be evaluated by guide , signed and pasted in the log book)

Example of evaluation sheet format given below.

| Headings | Comments | | | |
|------------------------|-----------|------|------|------|
| Assembly | | | | |
| cleanliness | | | | |
| Instruments used | | | | |
| Technique | | | | |
| Results/interpretation | | | | |
| Discussion: Theory | | | | |
| Discussion: Practical | | | | |
| Overall remarks | Excellent | Good | Fair | Poor |

Desirables:

1) Drug level monitoring

Hands on experience with HPLC, HPTLC, spectrophotometry.

- 2) **CRO visits:** to be done by the student in fourth term for 1-2 months in reputed CRO (short listed by university / department) to make the students to have hands on experience in pharmaceutical industry work.

Incase this is not possible then **10 -15 days workshop on clinical pharmacology** in reputed institutes would be desirable.

- 3) **Inclusion of topics** like pharmacoeconomics, pharmacovigilance, Pharmacogenetics, pharmacoepidemiology, National health programmes and chronopharmacology would be desirable.

Dissertation Objectives:

1. To make aware the post graduate student about every aspect of research this involves finding research topic, searching literature, research methodology, Statistics, analysis, scientific writing and many other aspects involved.

2. The topic or project taken need not necessarily bring out /explore something very novel, very big or breakthrough in medical science. the main aim is to train post graduate students for taking up such challenges in the future and learn maximum about the research development during their curriculum.

Dissertation topic along with plan of work is to be allotted by the guide within one year. The study could be prospective or retrospective and to be cleared by appropriate ethic committee.[Topics not be repeated for three years]. The subject of dissertation countered by the postgraduate student and head of the dept of the institute should be submitted to the university within one year of registration. If the topic is changed, it should be communicated to university within one and half year of registration. Dissertation presentation would be done two *times*, first presentation before protocol submission and last before final submission.

Four Copies of completed dissertation with appropriate certificates should be submitted at the end of fifth semester.

Four examiners will examine these dissertations and report acceptance or otherwise, - [three out of four have to accept the dissertation for its final acceptance by the university]. If two examiners accept the dissertation, Chairman BOS will take final decision. Non acceptance should be justified with reasons thereof.

Examination Pattern:

(As per Direction No. 01/2008 dtd. 26/05/2008)

Navi Mumbai**

Six monthly Progress Report for Postgraduate Students

PART A

Name of the PG student: _____

Department: _____

Admitted in (Month and Year): _____

Name of the PG guide: _____

Report for the period: _____ to _____

Attendance: _____ days (_____ %)

PART B

Grading as per performance

| Grade | Percentage |
|-------|---------------|
| A | 80% and above |
| B | 65% to 79% |
| C | 50% to 64% |
| D | Below 50% |

1. OPD work:
2. Ward work:
3. Lab work:
4. OT work:
5. ICU work:
6. Teaching assignments:

PART C

Progress of Thesis

| |
|--|
| |
| |
| |

PART D

Activities from serial No. 1 to 5 should be rated on a scale of 0 to 10.

1. Case Presentations

| Sr. No. | Topic | Date | Guide | Marks |
|---------|-------|------|-------|-------|
| | | | | |
| | | | | |
| | | | | |
| | | | | |

2. Microteaching

| Sr. No. | Topic | Date | Guide | Marks |
|---------|-------|------|-------|-------|
| | | | | |
| | | | | |
| | | | | |
| | | | | |

3. Recent Advances

| Sr. No. | Topic | Date | Guide | Marks |
|---------|-------|------|-------|-------|
| | | | | |
| | | | | |

4. Seminars

| Sr. No. | Topic | Date | Guide | Marks |

Resolution No. 1.3.8.5 of BOM-51/2017: Resolved to approve subject wise topics for PG teaching (Microbiology, Pathology, Pharmacology, FMT). **[Annexure-V]**

| | | |
|-----|------------------------------|-----------|
| 47. | Drug resistance minimization | Bioethics |
| 48. | Sterilization Techniques | Bioethics |
| 49. | Biosafety and Biohazard | Bioethics |
| 50. | Environmental ethics | Bioethics |

List of Topics for PG Teaching (Pharmacology)

| | |
|---|------|
| 1- Recent advances in treatment of hypertension | 2hrs |
| 2- Recent advances in treatment of Congestive Cardiac Failure | 2hrs |
| 3- Newer trend in Pharmacotherapy of Angina Pectoris | 2hrs |
| 4- Treatment of Arrhythmias | 2hrs |
| 5- Drug affecting blood coagulation | 2hrs |
| 6- Advances in Treatment of Shock | 2hrs |
| 7- Central neurotransmitters | 1hr |
| 8- Treatment of Parkinsonian disease | 2hrs |
| 9- Pharmacotherapy of Alzheimer's disease | 2hrs |
| T/T of convulsive disorders | 2hrs |
| 10- Newer antidepressants | 1hrs |
| 11- Pharmacotherapy of pain | 2hrs |
| 12- Pharmacotherapy of Migraine | 1 hr |
| 13- T/T of skeletal muscle dysfunction | 2hrs |
| 14- Advances in Insulin | 1hrs |
| 15- Recent advances in Pharmacotherapy of diabetes mellitus | 2hrs |
| 16- oral contraceptives | 2hrs |
| 17- Corticosteroids | 2hrs |
| 18- Advances in treatment of Osteoporosis | 2hrs |
| 19- Drugs acting on Uterus | 2hrs |
| 20- Advances in treatment of bronchial asthma | 2hrs |
| 21- Ocular Pharmacology | 2hrs |
| 22- Pharmacotherapy of peptic ulcer | 2hrs |
| 23- Pharmacology of antiemetic drugs | 1hr |
| 24- Immunomodulators | 2hrs |

22/2/17

Resolution No. 1.3.8.7 of BOM-51/2017: Resolved that Part of the assessment may be based on computer aided Learning (CAL) software in MD Pharmacology Examination wherever animal experiments are not possible/feasible/permitted.

Resolution No. 1.3.8.11 of BOM-51/2017: Resolved to approve the topics to be included under Bioethics in UG. **Annexure-IX**

Bioethics Topics for UG/PG

Topics for MD pharmacology syllabus

- Rational drug prescribing
- Ethics in experimental pharmacology
- Bioethics in clinical trials
- Risk minimization
- Drug information services
- Polypharmacy

Resolution No. 1.3.8.10 of BOM-51/2017: Resolved to introduce research protocol writing and criticism of research paper under the subhead of clinical pharmacology in MD Pharmacology Practical examination from May/June 2018 examination onwards. **[Annexure-VIII]**

Resolution No. 1.3.7.11 (i) of BOM-51/2017: Resolved that the following Bioethics topics in PG Curriculum are to be included for PG students of all specialization and a sensitization of these topics can be done during PG Induction programme:

- Concept of Autonomy
- Informed Consent
- Confidentiality
- Communication Skills
- Patient rights
- Withholding / Withdrawing life-saving treatment
- Palliative Care
- Issues related to Organ Transplantation
- Surgical Research and Surgical Innovation
- Hospital Ethics Committee
- Doctor-Patient relationship

Resolution No. 1.3.23 of BOM-51/2017: Resolved to implement a Structured Induction programme (07 days) for PG students. [Annexure-XLIV]

Item No. 12

MGM INSTITUTE OF HEALTH SCIENCES
Navi Mumbai

Induction Program for newly admitted Postgraduate students

Annexure-VI

**Report on participation in the Pharmaceutical Industry /CRO/Research
Organization Training**

1. Name and designation of Student :

2. Address :

**3. Name & address of Faculty Incharge of Pharmaceutical Industry/CRO/ Research
Organization:**

4. Duration of Training :

5. Highlights of work conducted :

i) **Technique/expertise acquired**

ii) **Research/Training summary**

iii) **Proposed utilization of the experience in Mahatma Gandhi Institute of Health
Sciences, Navi Mumbai**

**Signature
of Student**

**Signature of Faculty Incharge
of Pharmaceutical Industry/CRO/Research Organization**

Annexure-7

MEMORANDUM OF UNDERSTANDING

BETWEEN

**MGM Institute of Health Sciences,
Sector 1, Sion – Panvel Express Highway,
Kamothe, Navi Mumbai.**

AND

This Agreement made and entered into on this _____ day of _____ between MGM Institute of Health Sciences, Navi and Mumbai (hereinafter called MGMIHS) situated at Sector 1, Kamothe, Navi Mumbai 410209 and _____, duly registered as public/private company under Companies act 1956. (Hereinafter called "COMPANY" which expression shall include its successors and permitted assignees) with its registered office at _____.

1. OBJECTIVES OF THE MOU

The objectives of this Memorandum of Understanding are:

- a. To promote interaction between MGMIHS, _____ in mutually beneficial areas through collaborative research projects.
- b. To provide a formal basis for initiating interaction between MGMIHS, _____ by way of execution of Research Projects

2. PROPOSED MODES OF COLLABORATION

MGMIHS and _____ propose to collaborate through

- a. Appropriate mode of interaction agreed upon between MGMIHS and _____ Labs/company/Institution
- b. The projects undertaken will be for design, production for specific clinical application.

Each of the above modes of interaction will be initiated under the M.O.U

FORMS OF RESEARCH AND DEVELOPMENT PROGRAMS

The form of any of the said Research and Development Program (hereinafter referred to as "Research Program") will be conducted in their own existing facilities - The performance of research individually by each Party or concurrently by

both Parties in mixed groups at their own facilities with regular exchanges of results.

3. ACTIVITIES TO BE CARRIED OUT UNDER THE PROJECT.

Scope of Work

Responsibilities of MGMIHS

Responsibilities of _____

4. AGREEMENTS FOR RESEARCH COLLABORATION

Each research collaboration undertaken by the parties here under shall be initiated by the signing of a separate research agreement between the parties, which will describe in detail:

- a. The nature, scope and schedule of the research collaboration.
- b. The form of the research collaboration.
- c. The estimated cost of the research collaboration together with the source amount of funding, if any, to be received from third parties.
- d. The treatment of intellectual property and data rights, including patents, industrial design registration, copyrights and all other proprietary information (including innovations not patented, designs not registered etc.) which result from the research collaboration or which belong to a party and are used in research collaboration.
- e. other provisions as may be mutually agreed upon, including provisions covering the consequences of default or termination by a participant, term, arbitration of disputes and applicable law.

5. CONFIDENTIALITY

- a. During and for a period of 3 years from the date of disclosure, each party agrees to consider as confidential all information disclosed by the other party in written or tangible form or, if orally disclosed confirmed in writing within thirty days of disclosure and identified as confidential by the disclosing party.
- b. The obligations above shall not extend to any confidential information for which the receiving party can prove that this information:

- Is in the public domain at the time of disclosure or comes within the public domain without fault of the receiving party.
- Is already known or become known to the receiving party
- Is received from a third party having no obligations of confidentiality to the disclosing party,
- Is independently developed by the receiving party; or
- Is required to be disclosed by Indian law or court order.

6. NON-EXCLUSIVITY

The relationship of the parties under this MOU shall be nonexclusive and both parties, including their affiliates, subsidiaries and divisions, are free to pursue other agreements or collaborations of any kind. However, when entering into a particular research agreement, the participants may agree to limit each party's right to collaborate with others on that subject.

7. ARBITRATION & DISPUTE SETTLEMENT

If any dispute arises between the two parties of the MoU regarding implementation of the terms of the MoU or any other matter incidental to or connected with the subject matter of the MoU, such dispute shall be resolved as far as possible amicably by mutual consultations, using the good offices of _____ or their respective nominees, and in case such disputes are not possible to be resolved amicably, then the entire matter so involves may be referred by any of the parties to this MoU to two arbitrators one each to be nominated by the Vice-Chancellor MGMIHS and by the Director, _____. Both such Arbitrators shall be entitled to select a third Arbitrator (i.e. Umpire) in accordance with the Law, and the decision taken by such Arbitrators shall be binding on the parties of this MoU. The provisions of Indian Arbitrators and Conciliation Act 1996, as modified from time to time shall apply to such arbitration proceedings."

8. RELATIONSHIP

Nothing in this MOU shall be construed to make party a partner, an agent or legal representative of the other for any purpose.

9. ASSIGNMENT

It is understood by the Parties herein this MOU is based on the professional competence and expertise of each party and hence neither Party shall transfer or assign this Agreement, or rights or obligations arising hereunder, either wholly or in part, to any third party.

10. LEAVE

The training period will be counted as part of course

11. COSTS OF THE MOU

Each Party shall bear the respective costs of carrying out the obligations under this MOU.

12. SIGNED IN DUPLICATE

This MOU is executed in duplicate with each copy being an official version of the Agreement and having equal legal validity.

BY SIGNING BELOW, the parties, acting by their duly authorized officers, have caused this Memorandum of Understanding to be executed, effective as of the day and year first above written.
